A MORE SUSTAINABLE LVT

Mohawk Group's domestic LVT is a sustainable safeguard for your supply chain. Manufactured in our innovative closed-loop manufacturing facility in Georgia, lower emissions in the distribution process and optimized material sourcing makes Mohawk Group domestic LVT a sustainable option for your flooring needs.

EPD

Mohawk Group is one of the only flooring manufacturers to have **product-specific EPDs** for domestic LVT products.¹

Orthophthalate-free, heavy metal free, and FloorScore certified

45%

Enhanced product circularity efforts in our domestic manufacturing have led to **Embodied Carbon** values 45% **less than the industry average**.

Our products contribute to LEED v4.1, WELL, BREEAM, CHPS, and Green Globes green building certifications

100%

Mohawk Group flooring is 100% **Carbon Neutral** with a **5% give back** for a net positive impact on the environment.

Note: MG's LVT EPD (6.41 kg CO2e/m2) vs. RFCI Industry Avg EPD for LVT (11.9 kg CO2e/m2)
